

TECHNICAL DATA SHEET

PH 4999D

PRODUCT OVERVIEW

PH 4999D is a very high coat weight permanent polyester tape which has a siliconized paper liner that uses an aggressive rubber based hot melt adhesive. Suitable for bonding applications on difficult surfaces and widely used in the closure of corrugated postal packs.

PRODUCT CONSTRUCTION

Liner: 120g siliconized paper liner

Carrier: 17g polyester

Adhesive: synthetic rubber based with 40gsm on the open and 140gsm on the closed side

Total thickness: 295 micron

PERFORMANCE PROPERTIES

Peel adhesion to steel (24-hour dwell) protected 2200 N/M open 1600 N/M

Shear adhesion to steel: protected 100 hours open 100 hours

Service temperature range: 0°C to 70°C

Recommended application temperature: 10°C to 50°C

Shelf life: Recommended 12 months from supply

TYPICAL APPLICATIONS

Permanent sealing of difficult surfaces, box closure

AVAILABILITY

PH 4999D is available in finger-lift sizes and also in pancake rolls or spools

Issued: 15/01/18
